ACTIVITY SUMMARY

BRIEF BIO OF SPEAKER

Mr. Aadil Ahmed Irshath currently serves as the Head of Training and Programmes at Arqgene. He also works as Manager at Sasi Nutraceuticals, Vellore, where he oversees product innovation, quality control, and market expansion

OBJECTIVE OF THE EVENT

The primary objective of the program was to cultivate an interest in entrepreneurship and emphasize its significance among students. The guest speaker delivered an inspiring and motivating session, providing practical guidance on becoming a successful entrepreneur. He encouraged students to embrace a startup mindset and highlighted the opportunities available in the entrepreneurial ecosystem. Both students and staff found the session engaging, insightful, and thought-provoking.

Topics Covered by Mr. Aadil Ahmed Irshath, Ph.D.

- Innovation
- Goals of the startup process
- The 5 D's to enhance innovation
- Steps to building a business
- Self-confidence
- Encouragement
- Motivation
- Optimism
- Startup ecosystem enablers (Avaram Amrit)

Key Outcomes

- Participants gained a deeper understanding of innovation processes and commercialization strategies through the speaker's insights.
- Real-world examples and case studies offered practical perspectives on the challenges and successes of technology transfer and commercialization.
- Attendees acquired knowledge relevant to both academic research and industry applications, fostering a bridge between laboratory innovations and market opportunities.
