

Event Name: Capacity building program on AI tools and techniques for Interactive online teaching

Date: 28.11.2024

Organized by: Internal Quality Assurance Cell (IQAC)

Academic Year: 2024-2025

Report:

A Capacity Building Program on *AI Tools and Techniques for Interactive Online Teaching* was conducted for the faculty, featuring **Fr. Sabu Thomas**, Assistant Professor, Department of English, Sacred Heart College, Thevara, Kochi, as the resource person. The session aimed to equip teachers with advanced digital skills to enhance the quality and engagement of online learning environments.

Fr. Sabu Thomas provided an in-depth overview of emerging AI-based educational tools, highlighting their relevance in content creation, evaluation, personalized learning, and classroom management. He demonstrated practical applications of platforms such as AI-assisted lesson planners, interactive content generators, automated assessment systems, and digital storytelling tools.

Participants were guided through hands-on activities that enabled them to explore these tools and integrate them into their teaching practice. The resource person emphasized ethical considerations, digital literacy, and the need to adapt to evolving technological landscapes in education.

The session received positive feedback, as faculty members found the training highly relevant, informative, and transformative for modern pedagogical practices. Overall, the program successfully enhanced the participants' competency in using AI for creating dynamic, interactive, and student-centered online learning resources.
