

Event Name: On campus Placement drive
From Date: 22.01.2026
Organized by: Career Guidance & Placement Cell and Besant Technologies.
Academic Year: 2025-2026

Report:

The Career Guidance and Placement Cell of Auxilium College (Autonomous), Vellore, organized an On-Campus Placement Drive on 22nd January 2026 in collaboration with Besant Technologies for the students of the Department of Computer Science and the Department of Computer Applications. The campus drive was conducted with the objective of providing students with an opportunity to interact with industry professionals, gain exposure to the recruitment process and obtain placements.

A total of 66 students participated in the campus drive. Out of these, 13 students were selected for training. The program provided students with exposure to industry expectations and career opportunities in the IT sector.

Overall, the On-Campus Placement Drive was a successful initiative by the Career Guidance and Placement Cell, contributing significantly to the career development and employability of the students.
