

Event Name: Month Value Presentation – Compassion

Date: 25.11.2025

Organized By: PG & Research Department of Physics

Academic year: 2025 – 2026

Report

The Department of Physics organized a meaningful and inspiring presentation on the monthly value “Compassion”, with active participation from nearly 40 students. The programme aimed to deepen the understanding of compassion as a core human value and to encourage students to practice empathy, kindness, and service in their daily lives.

The event commenced with a prayer, invoking peace, love, and unity among all. Students then shared a series of motivational quotes on compassion, highlighting its importance in building a just and humane society. These reflections created a serene and thoughtful atmosphere, reminding the audience of the power of small acts of kindness.

A major highlight of the programme was a skit based on the life of Sr. Maria Troncatti, a religious figure known for her extraordinary compassion, selflessness, and unwavering service to humanity. Through the skit, students portrayed her tireless efforts in caring for the sick, comforting the distressed, and uplifting the marginalized. The performance effectively captured her spirit of love and sacrifice, inspiring everyone present to emulate her virtues.

The collective efforts of the students showcased not only their talent but also their deep commitment to understanding and practicing the value of compassion. Their dedication made the presentation both educational and emotionally enriching.

The Department of Physics successfully delivered the Value of the Month Compassion, reinforcing its significance in personal growth, community wellbeing, and character formation.
