

**Event Name : Speech Contest on “Energy Conservation: Our Responsibility, Our Future” as part of the observance of National Energy Conservation Day (December 14, 2025).**

**From Date : 12. 12. 2025**

**To Date : 12. 12. 2025**

**Organized by : Department of Microbiology in Association with Auxilium, Innovative and Incubation Centre**

**Academic Year : 2025 – 2026**

**Report:**

The event was well-organized and academically enriching. The students showcased excellent communication skills and a strong understanding of sustainability issues. The speech contest helped us understand energy conservation from different perspectives. It motivated us to adopt eco-friendly practices in our daily lives. The Speech Contest on “Energy Conservation: Our Responsibility, Our Future”, organized by the Department of Microbiology in association with the Auxilium Innovation & Incubation Centre, was conducted successfully and received highly positive feedback from participants, faculty members, and organizers. The event created strong awareness about the importance of energy conservation and sustainable practices. Participants expressed that the topic was timely, relevant, and thought-provoking. The judging session added academic value, especially through the insightful remarks and constructive feedback given by the judge.

Overall, the program was informative, engaging, and well-coordinated, encouraging students to think responsibly about energy usage and environmental sustainability.
