## Preface

Auxilium College is one of the oldest institutions established in 1954 in an arid semi-rural place - Katpadi, near Vellore. It is the first women's college in Vellore District, with the heritage of offering higher education to the rural young women of, Vellore and all the neighbouring districts, towns and Villages for 66 years. In a backward area like Vellore when school education itself was a big dream for the girls, Auxilium College opened new paths of progress by making collegiate education possible for the young women of this rural locality and the neighbouring villages. The College was affiliated to the University of Madras till May 2003 and since June 2003 the college has been affiliated to Thiruvalluvar University.

The college was awarded an A<sup>+</sup> grade in 2004 with an institutional score of 90-95% by the National Assessment and Accreditation Council (NAAC). Auxilium was **the only college in Tamil Nadu and the second in the entire nation to be accredited with an A<sup>+</sup> grade by the NAAC**, after which the college went for two cycles of accreditation with A grade in 2010 with a CGPA of 3.41 out of 4 and an institutional score of 90-95% in the second cycle, and A<sup>+</sup> grade with a CGPA of 3.55 out of 4 in the third cycle.

Auxilium College gives prime focus on the holistic education and equally concentrates on both the academic performance and the character formation of the students. The extension activities of the college ensure sustainable and consistent outcomes for the service programmes of the college. All the departments and the groups and movements of the college were involved in extension service ever since the inception of the college, benefitting the neighbourhood villages through many service programmes like coaching classes, awareness programmes, sanitation, Sapling-plantation and assistance at medical and immunization camps.

Auxilium College getting enrolled in Unnath Bharat Abiyan, the flagship programme of the Government of India to bring in transformational change in Rural Development is considered to be a milestone in the extension services of the college. We are proud to be part of the Government's venture to involve the student community to build an inclusive India. We assure to contribute our dedicated service as an educational institution to accomplish the mission of UBA.

Dr. P.R. Amutha Arockia Mary- UBA Coordinator,

## **UBA Activity of the year- 2020**

### **August 15<sup>th</sup> - September 24<sup>th</sup>: Green Workshop**

UBA unit of Auxilium College has organized the green workshop in collaboration Ariuvthotham, Vellore, an association of organic farming.

The inauguration of the workshop was held on August 15<sup>th</sup>, 2020 to commemorate the Independence Day. Dr. Amutha, Coordinator, UBA, Auxilium College proposed the welcome address. Dr.(Sr). Jayashanthi, Principal, Auxilium College delivered the presidential address. Mr. Senthamilselvan, Founder, Arivuthodam, the co-organizer of the workshop explained the dynamics of the workshop. Mr. Ganeshan, Deputy Director, Horticulture, Vellore District gave the inaugural address. Ms. Ramya, Student Leader has proposed the vote of thanks.

The workshop was intended to engage the students to involve in gardening during the lockdown period and encourage them to be the 'green ambassadors' to promote green reformation. More than 100 students participated in the workshop. The schedule of the workshop was designed with an input session, hands on training, follow up and green challenge. The input session on Roof Garden and Kitchen Garden was divided into seven sessions and organized in alternate days during the first two weeks of the workshop through Google Meet online platform. Mr. Srinivasen, Proprietor, Ashok Gardena and Nursery, served as a Resource Person. Simultaneously hands on training were given to the students. The input Sessions were on

Session I: Preparation of Soil mix

Session II: Preparation of seedling

Session III: Grow bag selection/ How to put potting soil in the grow bag, seedling and seeds.

Session IV: Day to day maintenance & How to water the plants

Session IV: Day to day maintenance & How to water the plants

Session V: How to give fertilizer and what fertilizer to give at which time.

Session VI: How to prevent the plants from pest & How to recover the affected plants.

Session VII: How to prepare your own fertilizer at home with waste vegetables

The participants were divided into 6 groups with 15 students in each group. The student participants are assigned with the task of developing a roof garden or kitchen gardens based on the inputs given in the workshop and update the growth of the plant gradually in the whats App group created for the green workshop. The participants tired various garden activities, harvested green memories during the lockdown in the pandemic. After completing the seventh week, the student participants presented their report during the valedictory function.

The Valedictory function of the workshop was held on September 24<sup>th</sup>, 2020 to mark the NSS Day. Dr. Amutha, NSS Programme Officer proposed the welcome address. Dr. (Sr). Jayashanthi, Principal, Auxilium College delivered the presidential address. Rev. Sr. Alice K.T gave her felicitations. Mr. Senthamilselvan, Founder, Arivuthodam, the co-organizer of the workshop gave the keynote address. Mr. Srinivasan, Proprietor, Ashok Gardena and Nursery spoke on the highlights of the workshop. Dr. Ravichandaran, NSS Programme Coordinator, Thiruvalluvar University gave the Valedictory address. Ms. Ramya and Ms. Yogashree, Student leaders presented the workshop report. Ms. Sherlin Linda, Student Leader has proposed the vote of thanks.

A nutritious gift hamper with dates and red bananas were given to the pregnant women. Mr. L. Gobi, BDO, KV Kuppam, Ms. Kalaiselvi, BDO (P), KV Kuppam Block, Ms. Hemavathy, Panchayat President, Pasumathur and other local body members were present. Ms. Mythili, Project Director of ICDS explained about the impact of hemoglobin deficiency and nutrition diet for women. In the forenoon session various competitions for the Anganwadi Children was organized.

## Awareness Programme to Pregnant Women in collaboration with Integrated Child Development Service

## Competitions for the Aganwadi Children

### **13.04.2022: Awareness Programme in Government Girls Higher Secondary School- KV Kuppam**

Commemoration of Jallian Wallabagh Massacre was organized in Government Girls Higher Secondary School. Mass Book Reading Campaign was inaugurated by Mr. K.Munusamy, Chief Educational officer, Vellore. Awareness Programme on Child Protection was eventually organized in collaboration with District Social Defense Department. Various Competitions like Painting, Singing and poetry writing were conducted for the school children.

## **Demographic Details and Analysis of the Adopted Village**

Vellore is one of the biggest districts in Tamil Nadu. The district is primarily agrarian with majority of its population involved in agriculture. Leather based industry (tanning, garment manufacturing, foot wear manufacturing industries) is the main industrial sector in this district. Vellore district has an area of 6077 km. Vellore district lies between 12°15' to 13°15' North latitudes and 78°20' to 79°50' East longitudes in Tamil Nadu State. The 5 (K.V.Kuppam, P.K.Puram, Pillanthepet, Pasumathur and Mudinampet) adopted villages in K.V.Kuppam Block- situated in Vellore district of Tamil Nadu, India. Lack of irrigation water facilities and support services in water management have made farming operation in this district an exercise in futility.

All the hamlets in the K.V.Kuppam Block- have been considered as drought prone areas as the rainfall was only an average of 800 mm per year. Even this little quantity was not properly collected, conserved and utilised. As the agricultural methods changed and extraction of underground water became common practice, the general water table level went down alarmingly, causing the existing open wells to dry up even before the onset of summer.

The population survive with poor economic status and mainly dependent on rain fed farming and livestock rearing-goat. As the area receives poor and scanty rainfall the farming communities could not depend on agriculture operation for their survival. Even rain fed farming also fails due to lack of rainfall during the north east monsoon. Landless communities which are depending on farming often suffer due to lack of work and migrate to other towns, cities or states in search of work.

### **Socio-economic Status**

Prevailing and increasing land degradation and loss of productivity due to manmade and natural causes have serious implications on the livelihood of the marginalized residing in the adopted villages in K.V.Kuppam Block, Vellore District. Most of the women are workless, for very occasionally they are engaged with certain farming works. Moreover the income is at erratic to every household .With regard to housing the target community lives in hut houses without adequate space and sanitation. Poor sanitation and open defecation also negatively impacts the lives of focal communities particularly the women and children by crippling development. The health and hygiene situation also worsened due to the

overall poverty and penury, and the villagers are easy preys to the heartless usurers. Due to the poor status of livelihood many families in the communities are unable to send their children for higher education. Girl children are the worst victims of this situation and often discontinued from schooling which creates gender inequity.

## CONSOLIDATION OF THE HOUSEHOLD SURVEY

### UNNANTH BHARAT ABIYAN 2.0

AUXILIUM COLLEGE (A), VELLORE- TN (AISHE CODE: C-36347)

### HOUSEHOLD SURVEY

Table No.1

#### Level of Education

	Frequency	Percent	Valid Percent	Cumulative Percent
Not literate	83	22.4	22.4	22.4
Literate	104	28.0	28.1	50.5
class 5	26	7.0	7.0	57.6
class 8	31	8.4	8.4	65.9
class 10	57	15.4	15.4	81.4
class 12	28	7.5	7.6	88.9
diploma	8	2.2	2.2	91.1
graduate	27	7.3	7.3	98.4
pg	6	1.6	1.6	100.0
Total	370	99.7	100.0	
Missing System	1	.3		
Total	371	100.0		

From the above table it can be observed that the majority 28% of the respondents are literates and they have got the basic primary level education, 7% of graduates, 1.6% of respondents holding post graduate degree. The illiteracy rate is around 22% showing the importance of education. Education in rural segments is not only important to irradiate poverty and illiteracy but also to uplift and improvise the aspects of social, political, cultural levels

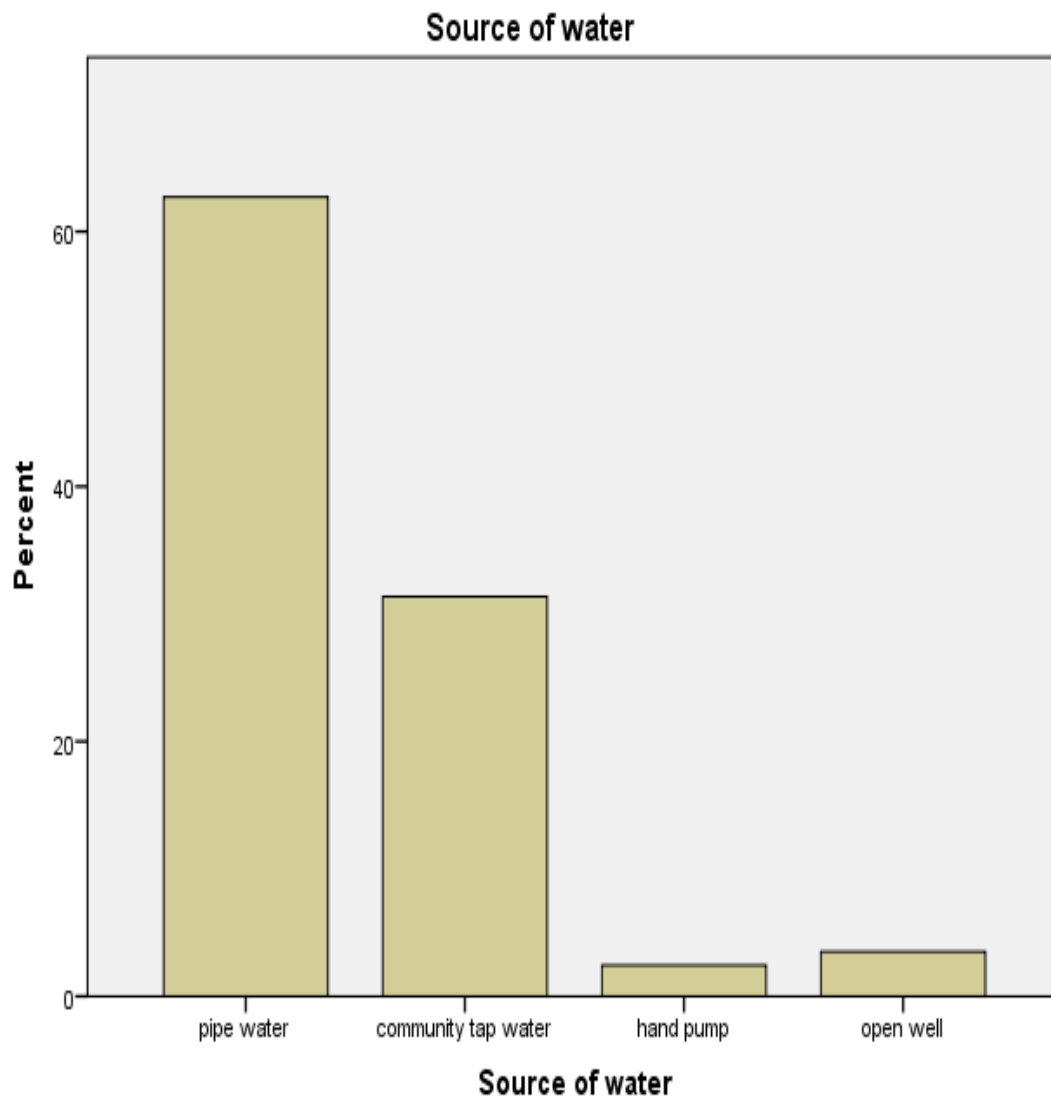

Table No.2

#### Migration status in family

	Frequency	Percent	Valid Percent	Cumulative Percent
YES	35	9.4	9.5	9.5
Valid NO	335	90.3	90.5	100.0
Total	370	99.7	100.0	
Missing System	1	.3		
Total	371	100.0		

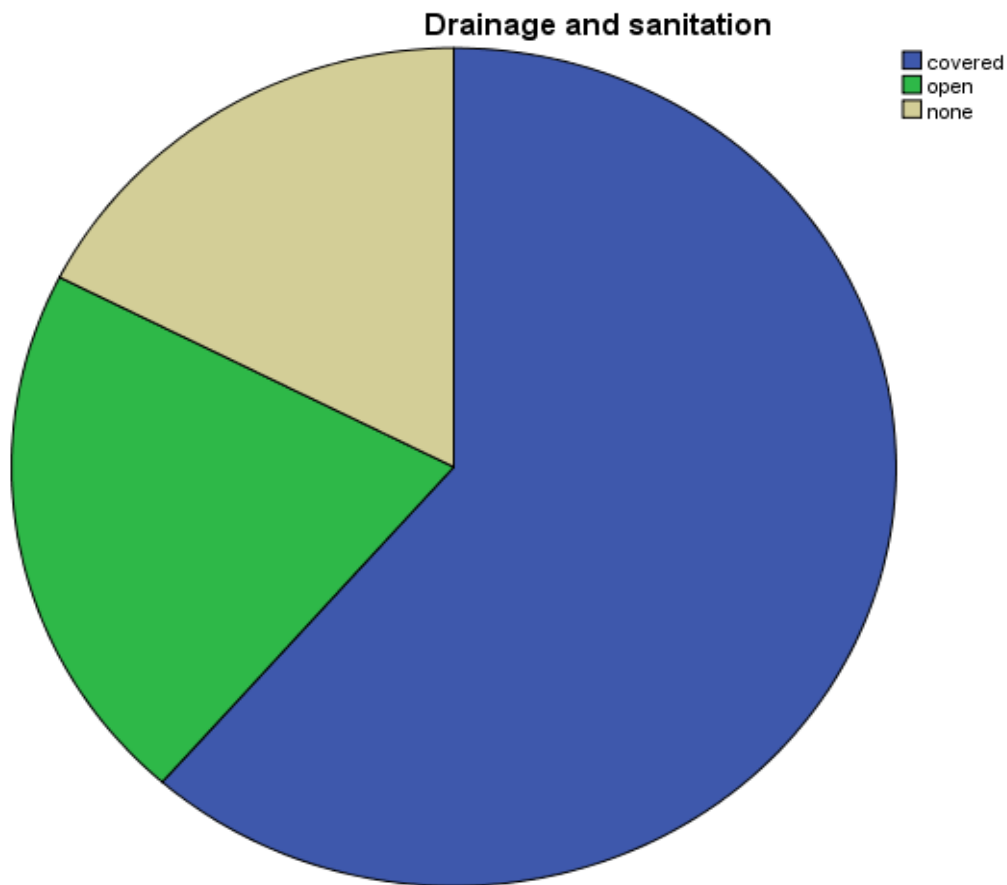

The above table shows the migration level of the village. Around 90% of the respondents belong to the place and they aren't migrants. About 9% of the family members of the respondents had migrated to different places in seek of Occupation/Education.

Figure No.1

The above Figure depicts the source of water available in the villages. The major source of water is underground water and it is drawn with the help of hand pumps or witht the use of motors. From the above figure we can see the major source of water is from the Pipes, and the common community water taps, and from the open well and hand pups which is located both in common places aswell as in private.

Figure No 2

The above Figure shows the Drainage and sanitation system in the village. Poor sanitation is known to increase the risk of morbidity and mortality. the major component of sanitation is waste water disposal. Improper disposal of waste can spread diseases and pollute the environment. The maximum of the drainages are covered in the villages.

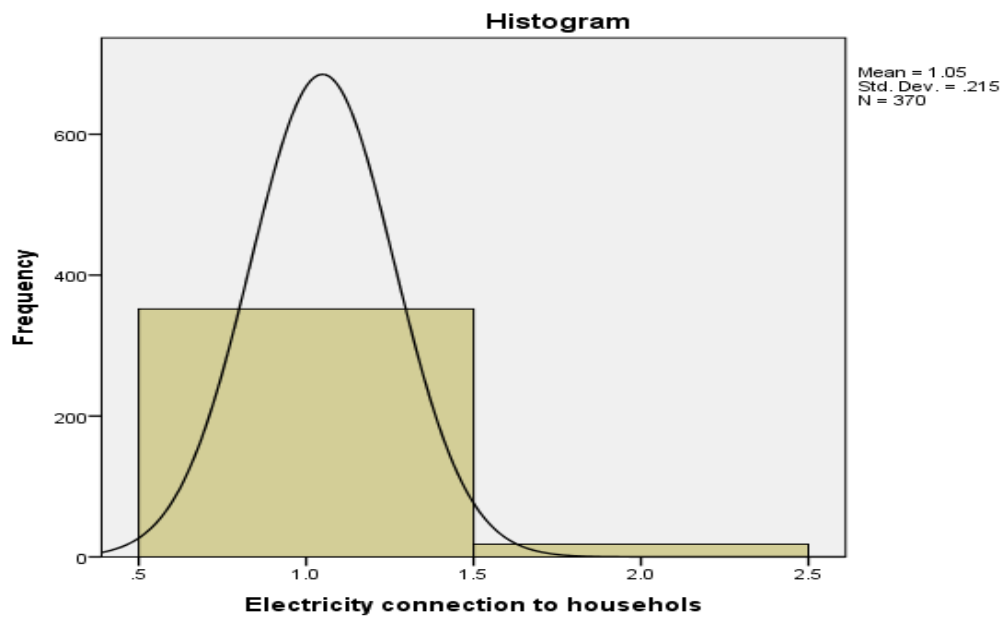

**Table 3**  
**Village infrastructure- Types of houses**

	Frequency	Percent	Valid Percent	Cumulative Percent
kutchha	44	11.9	11.9	11.9
semi pucca	166	44.7	44.9	56.8
pucca	158	42.6	42.7	99.5
Valid homeless	1	.3	.3	99.7
concrete house	1	.3	.3	100.0
Total	370	99.7	100.0	
Missing System	1	.3		
Total	371	100.0		

From the above table it can be seen that the majority of the houses in the villages are Semi pucca and pucca around 44%. The rest are kutchha houses which are made up of mud, dry leaves or wood. The semi pucca house roofs are generally made of hay, while the exterior is built with concrete

Figure No.3

From the above figure we can clearly see that majority of the houses have the electricity power. Thus, electricity has become an essential part of our modern lives, we do use electricity for lights, to refrigerate, to heat or to cool also to cook nowadays. Electricity is also used for different operating appliances, machines, computers.

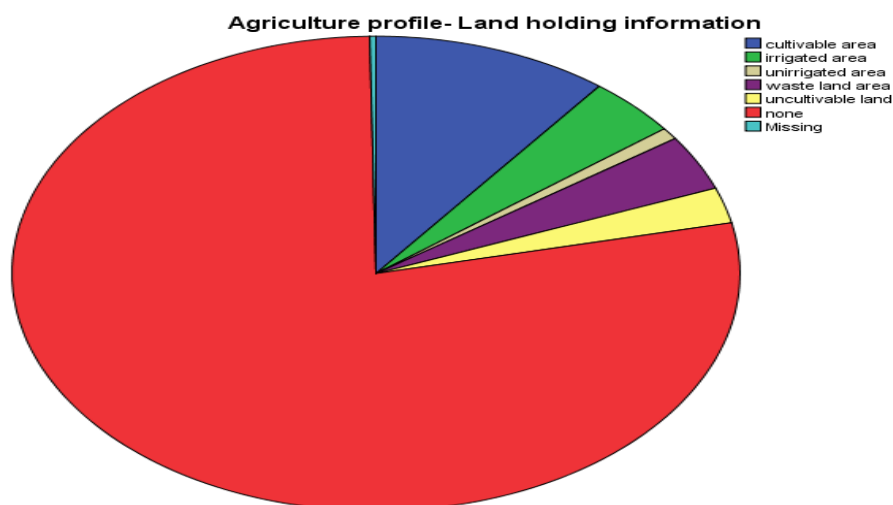

Table No. 4

**cooking energy**

	Frequency	Percent	Valid Percent	Cumulative Percent
LPG	303	81.7	81.9	81.9
Kerosene	26	7.0	7.0	88.9
biogas	23	6.2	6.2	95.1
none	1	.3	.3	95.4
wood	17	4.6	4.6	100.0
Total	370	99.7	100.0	
Missing System	1	.3		
Total	371	100.0		

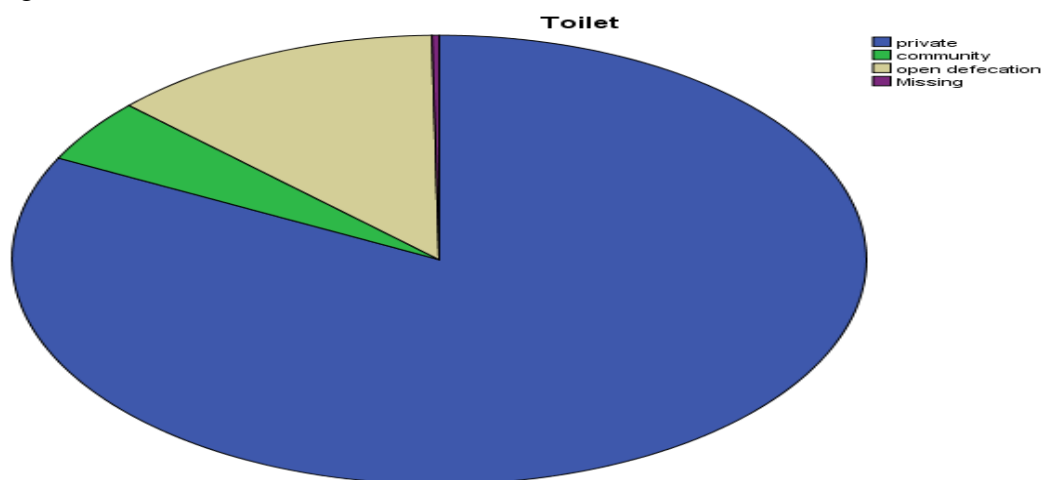

From the above table we can see that around 82% of the respondents use LPG for cooking. LPG is the most efficient cooking fuel it is economical and helps to cook food in less time which has minimum maintenance and lesser carbon footprint. The other fuels are kerosene, wood, biogas. In other parts people do use solid fuels like coal for cooking which has a direct impact on women resulting in various health problems

Figure No. 4

The above figure shows the land holding information of the respondents, and it can be seen that maximum number of respondents don't hold any land or agricultural areas in their villages. Only few respondents hold land that are cultivatable or irrigated. The rest are unirrigated and uncultivable lands

Figure No.5

The above figure shows that the sanitation facility in the villages. The majority of the respondents use private toilets in their places and the others use the community toilets and the others tend to be used of the practice open defecation. It's the practice of defecating outside rather than to in a toilet. People in rural areas may choose fields, bushes, forests, ditches, streets and other open spaces for defecation. This practice is common where sanitation infrastructure and services are not available.

Table No. 5

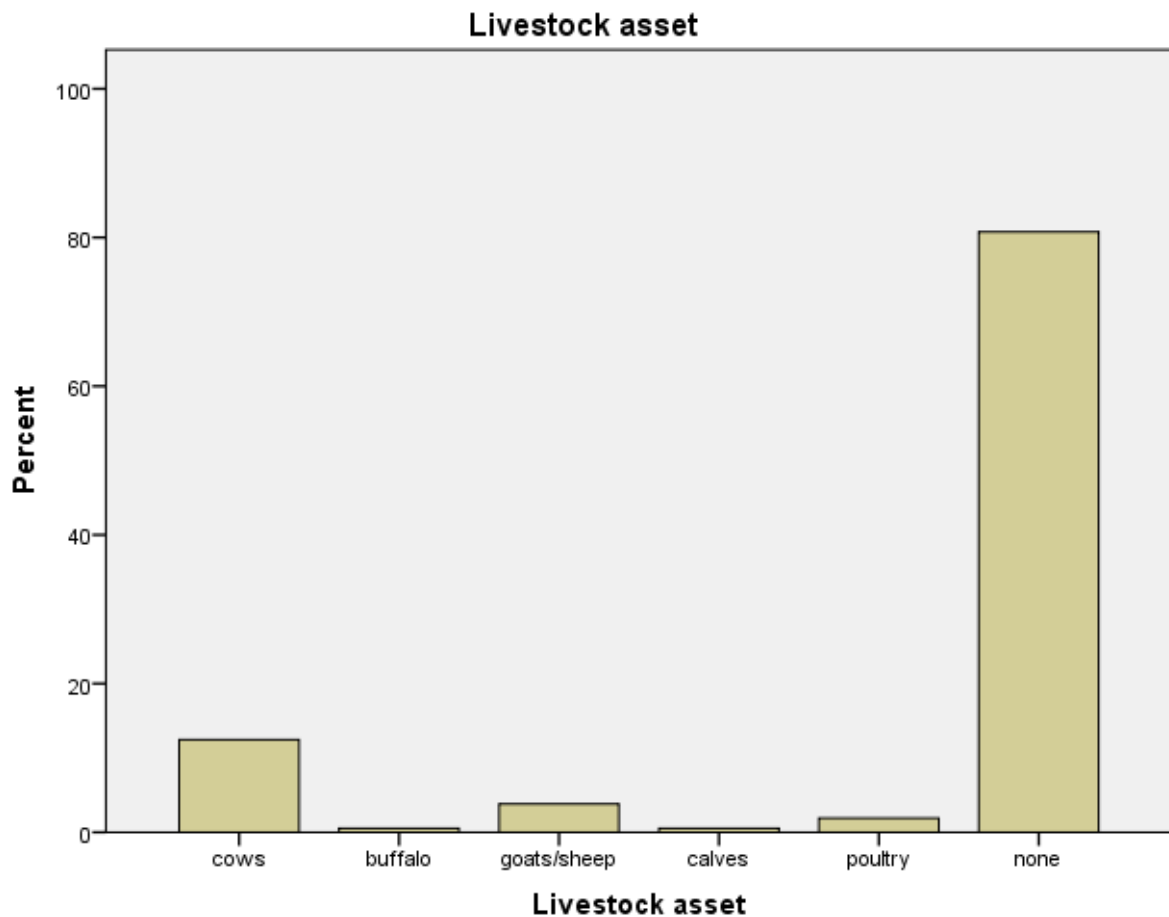

#### Government schemes and coverage

	Frequency	Percent	Valid Percent	Cumulative Percent
Valid none	368	99.2	100.0	100.0
Missing System	3	.8		
Total	371	100.0		

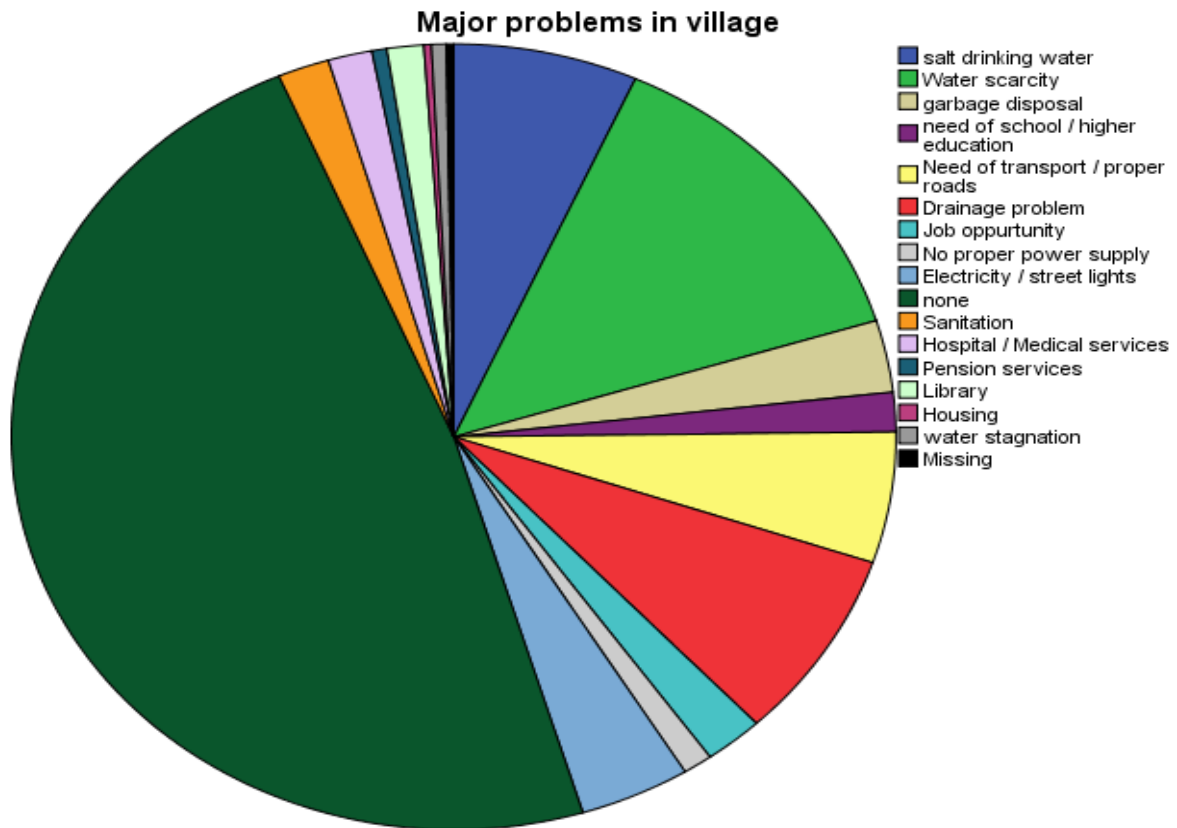

From the above table we can see that there is no government schemes and coverage seen in the villages or the majority of the respondents don't have the awareness of different schemes available for them

Figure No. 6

From the above figure it can be seen that the majority of the respondents do not possess any livestock asset or any cattle. And the maximum of the respondents have cattle like cows and buffaloes, goats/sheep, poultry. Livestock provides food such as Milk, meat, eggs for human conception

Figure No.7

From the above figure it can be seen that the major issues the respondents face in their day to days life. The major concern where the majority of the respondents reported was water scarcity, Salty drinking water, Drainage problem, Proper garbage disposal, Proper roads, street lights, Proper power supply, sanitation, hospitals, educational institution etc. Villages in India are facing acute shortage of water for households and agriculture activities. The agricultural sector of the country consumes majority of the water resources thus the water use efficiency should be initiated and restore the water bodies. To encourage the communities to save water in their own homes.
