Full time teachers are assigned the responsibility of mentors. They have under their guidance 25 or 35 students (Science and Arts respectively) as mentees. The mentors are instructed to responsibly monitor, conduct and guide the students entrusted to them. The mentoring system consists of regular meetings between the mentors and mentees. Scheduled mentoring sessions take place once in every month where a mentor meets all her mentees specially to discuss issues or instructions meant for all students. Apart from this the mentors are available to students throughout the year for personal mentoring sessions. The mentors every day after class hours make themselves available to the students. The mentors maintain the mentoring card (The Joy of Mentoring) which contains both personal and academic data of their mentees. The discussion and observation that take place during the one to one mentoring sessions is recorded in the mentoring card. The students are encouraged to share academic and stress related problems/ issues to the mentor. The mentors identify the potentials of the mentees and encourage them as need be. The mentoring system adopted by the College helps to identify slow and advanced learners and facilitate activities suiting their needs. Remedial classes and activities for advanced learners are introduced. In relation to stress related issues, the mentors to the best of their ability cater to the requirements of their mentees and redirect the students to the Counsellor (in the College) if need be. The mentors analyse the issues and if necessary bring it to the notice of the Head of the Department, Dean of student welfare, or the Vice Principal in case of Academic issues. The parents of students are also met in case of issues that need to be brought to the notice of parents. Mentors maintain confidentiality and seek assistance with the knowledge of the students.
