What is Choice Based Credit System
• Quality education plays an important role in enhancing knowledge, developing skills, building confidence, and creating a positive impact on students' life. It empowers students to grow not just professionally, but also lays a solid foundation of personal growth. To ensure quality education, higher education institutions must focus on developing a balance between - imparting education and promoting skill development by providing flexibility to explore various fields.
• Technology changes and the surge in automation has risen at a great pace in the last few years, demanding students to be more ready for the industry. Studying and Understanding other departmental courses (Interdepartmental courses) can complement and empower students' growth. An economics student can learn a Business Management Course, which would be helpful for him.
• The main problem in this is managing various permutations requires great effort, majorly to map clashes in timetables and examinations, and more.

Report

A National Level webinar on "Intellectual Property Rights" was organised on

25. 01. 2022 for faculty and students of Higher Education, nationwide. The session began with a Prayer Song invoking the Almighty's grace and blessings. Dr. Mary Agnes A., IQAC Co-ordinator, welcomed the dignitaries and participants to the virtual session. The Inaugural Address was delivered by Dr. (Sr.) Jaya Santhi R., Principal, Auxilium

College and Ms. S. Gomati Padma Thilaga, Scientist-B, Patent Information Centre, TNSCT, Chennai, presented her felicitations expressing her appreciation for the organisers' attempts to create awareness and inculcate knowledge to the stakeholders of Higher Education relating to shaping an environment that is conducive to fostering creativity and innovation in the country. According to the current scenario in IPR, she pronounced that India stands 10th at the Global Level in promoting and encouraging innovations, in all fields.

The Resource Person, Shri Lakshmi Narayanan. A, Examiner of Patents and Designs, Intellectual Property Office, Chennai acknowledged his affiliation to Auxilium College as his sibling's Alma Mater and conveyed his pleasure on being invited to share his expertise and views on IPR. The session proceeded with information imparted at 4 levels:

- What is IPR?
- Significance of IPR
- Types of IPR
- Application for IPR

Technical and literal definitions of the term IPR were distinctly explained with suitable illustrations to bring home the purpose and importance of patenting. For instance, he pointed that the cost borne by FACEBOOK to change its title name to META was around Rs.400 crore. Registering a house for legal possession was the same as patenting property to innovation or invention. IPR in academics could significantly add advantage to profile appraisal of the possessors, which is a matter of pride and esteem. The 7 categories of IPR were claimed to be different commodities in patenting products or processes which could be registered under any one category alone or in a combination, accordingly. The application and procedure to be followed for patenting was clearly explained and quires required for the process and duration of validity were duly answered.

Brain-storming questions on the information provided on patenting were instantaneously answered by the participants which was followed by the Questionnaire Session. The meet ended with an assurance from the Resource Person of providing e-certificates to the participants as per the details furnished in the Feedback Form forwarded at the end of the session. Dr. Sugantha Kumari V, Director of Research Studies, proposed the Vote of Thanks acknowledging the presence of the dignitaries, organisers and Auxilium College

Management for this opportunity to share the informative output and the participants for their active interaction and enthusiasm.
