Event: Atrocities on crimes against women and children

Conducted through Google meet <https://meet.google.com/vjm-sydq-mia>

The amount of violence against women has increased by many fold due to the greater exposure of women in every field of life. Women were previously restricted to the four walls of the houses and after globalization they have got the chances and opportunities to stand equally in all sectors at par with male. Women are now a day’s cab drivers and they are also the CEO of top companies. There are different kinds of tools that is being used by the male dominated society to prove their Domination over the female. Eve teasing, sexual harassment, rape, domestic violence against women are these weapons used by the male to display the male superiority. . Only strict laws cannot solve the problem of women safety in India rather the implementation of these laws in a time bound manner can solve the issue to a large extent said by Dr.Anantha Ramakrishna sakhivel. Nearly 98 Cadets took part and enriched their knowledge on women safety.
