## 6<sup>th</sup> May 2021 – Atrocities on crimes against women and children

Conducted through Google meet <https://meet.google.com/vjm-sydq-mia>

The amount of violence against women has increased by many fold due to the greater exposure of women in every field of life. Women were previously restricted to the four walls of the houses and after globalization they have got the chances and opportunities to stand equally in all sectors at par with male. Women are now a day's cab drivers and they are also the CEO of top companies.

There are different kinds of tools that is being used by the male dominated society to prove their domination over the female. Eve teasing, sexual harassment, rape, domestic violence against women are these weapons used by the male to display the male superiority. This is one of the prime reason violence is increasing in India and women safety is a concern in India.

Along with the mind set the slow pace of operation of Indian judiciary is another major reason for the increasing women safety in India. The police of India is not efficient and not neutral and that is the reason why the cases of violence against women takes long time in the investigation phase. In the name of social pressure and shame many women did not come out and report the matter to police. This is one of the many reasons why the number of cases reported are less than the actual numbers of violence happening against women.

It is a shame that rapes take place every day. It doesn't differentiate between a 3-year-old kid and an 80-year-old lady. From parties to workplaces to our homes, rape and harassment have become a norm. The survivors of these heinous crimes are then left to be humiliated throughout their life. Some of them even spend their whole "after rape life" on ventilators or they are burnt alive.

In order to improve women safety in India the first task is to improve the number of women in every sphere of society. Along with that the change in mind set of people is very essential for the safety of women. From family to educational institutions men should be taught about respecting females. Further, there should be fast-track courts to hear the cases and they cases should be investigated in a time bound manner. Only strict laws cannot solve the problem of women safety in India rather the implementation of these laws in a time bound manner can solve the issue to a large extent said by Dr. Anantha Ramakrishna sakhivel. Nearly 98 Cadets took part and enriched their knowledge on women safety.

**17th June 2021**

**Power seminar on “Setting Goals and Priorities”**

Conducted through Google meet: <https://meet.google.com/ijg-tmcx-oqq>

### **Event: World Bicycle Day**

National Cadet Corps organized World Bicycle Day in Auxilium College acknowledging the uniqueness, longevity and versatility of the bicycle, which has been in use for two centuries, and that it is a simple, affordable, reliable, and clean environmentally fit sustainable means of transportation, fostering environmental stewardship and health. National Cadet Corps of Auxilium college unit welcomed initiatives to organize bicycle rides at the national and local levels as a means of strengthening physical and mental health well-being and developing a culture of cycling in society.

The day encourages cadets to emphasize and advance the use of the bicycle as a means of fostering sustainable development, strengthening education, including physical education, promoting health, preventing disease, promoting tolerance, mutual understanding, respect and facilitating social inclusion and a culture of peace. This event was flagged off by our college secretary Rev.(Sr.) Alice K.T. She added, cycling is one of the best and easiest physical activities a benefit us from different perspectives.
